Dear Parents and Guardians:

On behalf of the Shrewsbury Community Alliance, I wanted to share some very, important information with you about the many, documented dangers of vaping and e-cigarettes. This issue has become a grave concern in schools and communities across the country as adolescents and teenagers have easy access to vaporizers and e-cigarettes online. The Shrewsbury Community Alliance has been focused on informing our local community about a variety of alcohol, drug, and substance issues and they remain committed to education and prevention efforts throughout our school.

Please follow these links to learn more about the health risks and current research regarding vaping from the CDC:
