Travel through a hundred years of history in this exciting club, and learn how the styles, themes and methods of art making have evolved in the Western world. Each week, students will learn about and different historical art movement and create art based on the techniques of a famous artist of that time. They will be exploring Impressionism, Cubism, Surrealism, Abstract Expressionism, and Pop Art. Students will be able to compare different works of art and identify different artists and their styles and place them in a broad historical context.
